

**From sick care
To health care
To self care**

BIOWATCH

Performance optimisation and preventive health

Biowatch offers employees, companies and athletes actionable insights to become more resilient, energised, and reach their potential.

Based on biomarkers, wearables and lifestyle data, the Biowatch platform provides the best possible conditions for proactive health optimisation.

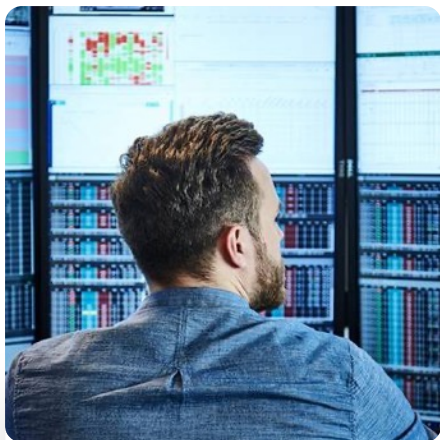

Seeking

We seek passionate advisors who can join our journey towards a paradigm shift from sick care to self care.

We seek advisors within
